

FRESHMAN CO-ED WOUNDS 'RIVAL'

Girl-Student at Ohio College Confesses to Shooting.

AWAITED FOR CHANCE

Shot Fired at Chapel—Victim Will Recover—Sensational Triangle.

DELAWARE, Ohio, Nov. 22.—East Ohio Wesleyan college today thrilled with the details of the most sensational love "triangle" case in its history which was climaxed today by the confession of Marjorie Davidson, the freshman co-ed, that she had shot and killed her rival, the senior girl, who was her lover's sweetheart.

The confession came according to the police, shortly after midnight on the day of the shooting, following a long waiting period. The girl, who is now in the hospital, is expected to recover.

Reveler Found. A reveler was found in a woman's rooming house, who was the sister of the shooting victim. She was the only one of the three who was not in the rooming house at the time of the shooting.

According to the police, the Davidson girl, who is now in the hospital, was given to the police by a friend, who was the sister of the shooting victim.

The girl, who is now in the hospital, was given to the police by a friend, who was the sister of the shooting victim. The girl, who is now in the hospital, was given to the police by a friend, who was the sister of the shooting victim.

Waited in Hallway.

Friday she sat in the hallway, which both girls attended, and waited in the hallway. The girl, who is now in the hospital, was given to the police by a friend, who was the sister of the shooting victim.

Theatrical Manager Fined. CHICAGO, Nov. 22.—A girl is said to be the largest fine ever assessed in Chicago for violation of the child labor law was imposed today by Municipal Judge George H. Holmes against David Nelson, the theatrical manager, owner of "My Daddies" and the manager of Powers theater here.

where the place was shown in Chicago when they were fined \$1,540 on 168 separate charges. Five children under 10 years of age appeared in the play. The defendants were fined for every appearance of the children on the stage during the four weeks run in this city.

Ten to One Against Your Estate

The estate you are working so hard to build now will have only one chance in ten to provide for your family for a longer period of time than seven years.

Does not this statement of PROVEN FACTS cause you to wonder what to do in order that you may protect them further?

Chance methods in business are costly, BUT not near as costly as chance methods in leaving your estate unprotected.

When you know that you must furnish protection for your loved ones after you are gone, we invite you to call on our trust officers and allow them to explain the SERVICE the Exchange Trust Company can give that will furnish them the needed protection.

"THREE EPISODES," our latest booklet, will give you more interesting FACTS. You may have one.

To Show You What Clean Teeth Mean

All Statements Approved by High Dental Authorities

Look Now

See how the teeth's whiteness is dimmed by film. Perhaps tartar has formed in some places.

Look Later

See how the teeth have whitened—how the film has disappeared.

This is to offer you a 10-Day Tube of Pepsodent—the peppin tooth paste which combats the film. Able authorities have proved the product by clinical and laboratory tests. The results are beyond any question. Leading dentists everywhere are now urging its adoption.

We ask you to prove it by a 10-day test. Do this for your sake and your children's sake. See for yourself how it will help you to cleaner and whiter teeth.

Film Wrecks the Teeth

That slimy film which you feel on your teeth causes most tooth troubles. Every modern dentist knows that. And for years dental science has sought a way to combat it.

Film is what discolors—not the teeth. It is the basis of tartar. It holds food substance which ferments and forms acid. It holds the acid in contact with the teeth to cause decay.

Millions of germs breed in it. They, with tartar, are the chief cause of pyorrhea.

Now science knows a way to combat it. The way is embodied in a dentifrice called Pepsodent. It is now used daily on millions of teeth, largely by dental advice. To those who don't know it we supply a free tube, so they may find it out.

Old Ways Don't End It

This film is clinging. It enters crevices and stays. The tooth brush doesn't end it. The ordinary tooth paste does not dissolve it. That's why millions find that well-brushed teeth discolor and decay.

Pepsodent is based on peppin, the digestant of albumin. The film is albuminous matter. The object of Pepsodent is to dissolve it, then to constantly combat it.

But peppin must be activated, and the usual agent is an acid harmful to the teeth. So this method long seemed barred. Now science has found a harmless activating method, and teeth can now be daily cleaned as they never were before.

Send the coupon for a 10-Day Tube. Note how clean the teeth feel after using. Mark the absence of the slimy film. See how teeth whiten as the fixed film disappears.

This means more than pretty teeth. Compare your teeth now with your teeth in ten days and decide what is right for yourself. Cut out the coupon now.
